SAFETY AND RELIABILITY SOCIETY LONDON BRANCH

"The Different Faces of System Assurance"

24th October 2017

Steve Denniss - WSP

And more speakers to be announced !

With greater emphasis being placed upon risk reduction, legislative compliance and financial accountability, clients expect successful project outcomes. The integrated solution needs to provide confidence - at all stages of the project lifecycle - that it will meet the requirements, and ultimately satisfy the objectives of the stakeholders. All this whilst ensuring safety of public and people at work. This event seeks to explore how System Assurance aims to deliver this confidence through the application of processes and tools to deliver successful project outcomes
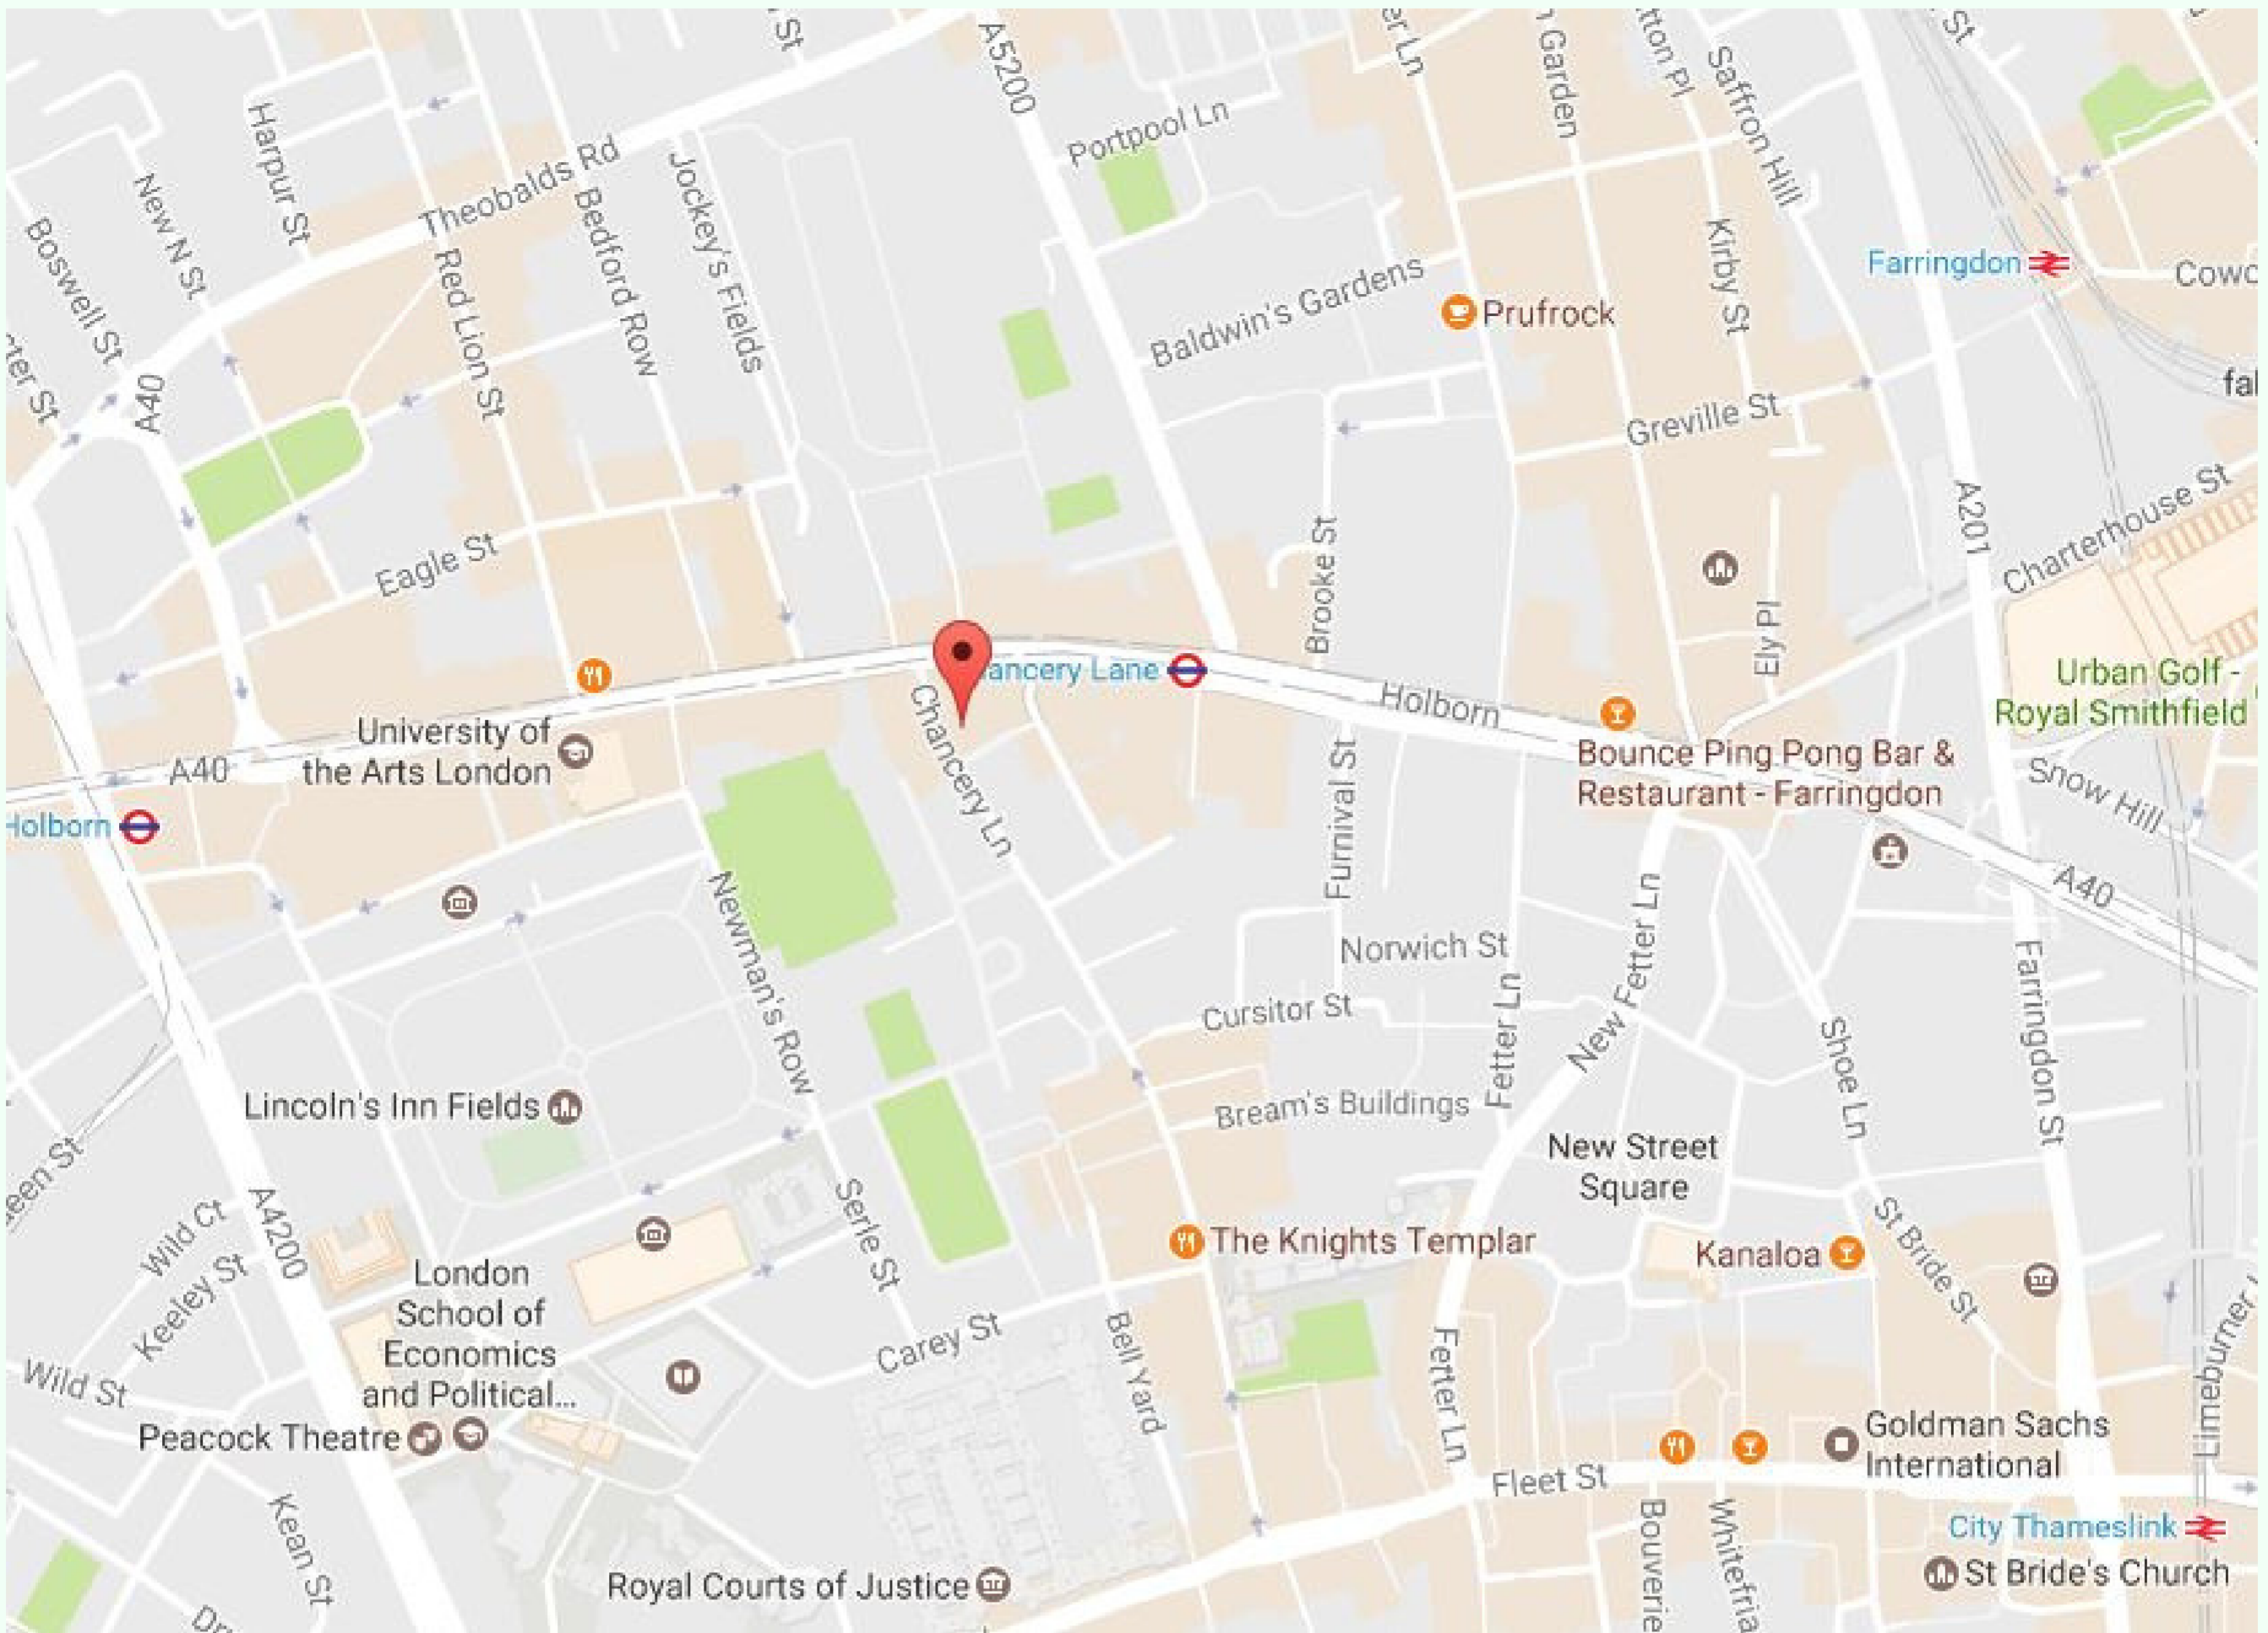

The meeting will begin at 1730, for a 1800 start. Meetings are open to all, you do not need to be a member of SaRS to attend.

Free CPD workshop and drop in membership applications (1530-1700)

Book here:
