

30 YEARS OF SIL

London Branch Event and Live Webinar

Wednesday 12 February 2020

This event will consider what we have learnt since safety integrity levels (SILs) were created 30 years ago and if it is now time for an in depth review of SILs.

The event will look back at the history of SIL, ask if SILs are fit for purpose and then think about where we go next. Come along and discuss if SILs are useful or have they just become a Warm Fuzzy.

Speakers:

Ron Bell, James Catmur, Jas Singh

If attending in person, book here to secure a place: tinyurl.com/sars-sil-2020

If you can't attend, register here instead for the live webinar: www.sars.clickmeeting.com

You don't need to be a member of SaRS to attend!
