

EARLY CAREER PROFESSIONALS PRESENTATION EVENING

London Branch Live Webinar

Thursday 24 September 2020 | 18:00 - 19:30

Hear from three early career professionals as they present on interesting safety and reliability projects from the rail and power generation sectors. The presentations will be followed by a Q&A and prize for the best presentation (sponsored by Virkonnen Ltd).

Speakers:

Gilad Amzaleg | RSSB

Raunak Kabra | Risktec

Esme Fowler | Bombardier

Register here for the live webinar: www.sars.clickmeeting.com

You don't need to be a member of SaRS to attend!

ABOUT OUR SPEAKERS

Gilad Amzaleg is a graduate analyst at RSSB. Gilad will present his work combining epidemiological and crowd dynamic modelling to maximise safe rail passenger capacity following the Covid-19 outbreak.

Raunak Kabra is a principal engineer at Risktec Solutions and has 10 years experience in the oil & gas industry. Raunak will present his work performing reliability studies for solar power plants and how to factor in current limitations.

Esme Fowler is a graduate with the two-year Bombardier Transportation scheme working in the product safety engineering department. Esme will present her work on the SWR Project safety case, specifically, the completion of the project functional FMEA.
