

SAFETY AND RELIABILITY SOCIETY LONDON BRANCH

Issues for Automation in Transportation

Rail – Paul Booth (Network Rail)

Aviation – Mikela Chatzimichailidou (WSP)

Roads – Paul Marsh (WSP)

And National SaRS AGM

Tuesday 27th November 2018

Automatic systems have been around for many years and continue to expand in all industries. In transportation, we feel the benefits of automation on a daily basis: riding an automatic train to work, flying off on holiday with autopilot in control, or driving your car on the same roads as automatic cars.

What different approaches are being used? What issues do they face? What are the moral issues, and, is the associated risk ALARP?

Join us for an informative and lively debate on the subject. The meeting will begin at 1730, for a 1800 start. Meetings are open to all, you do not need to be a member of SaRS to attend.

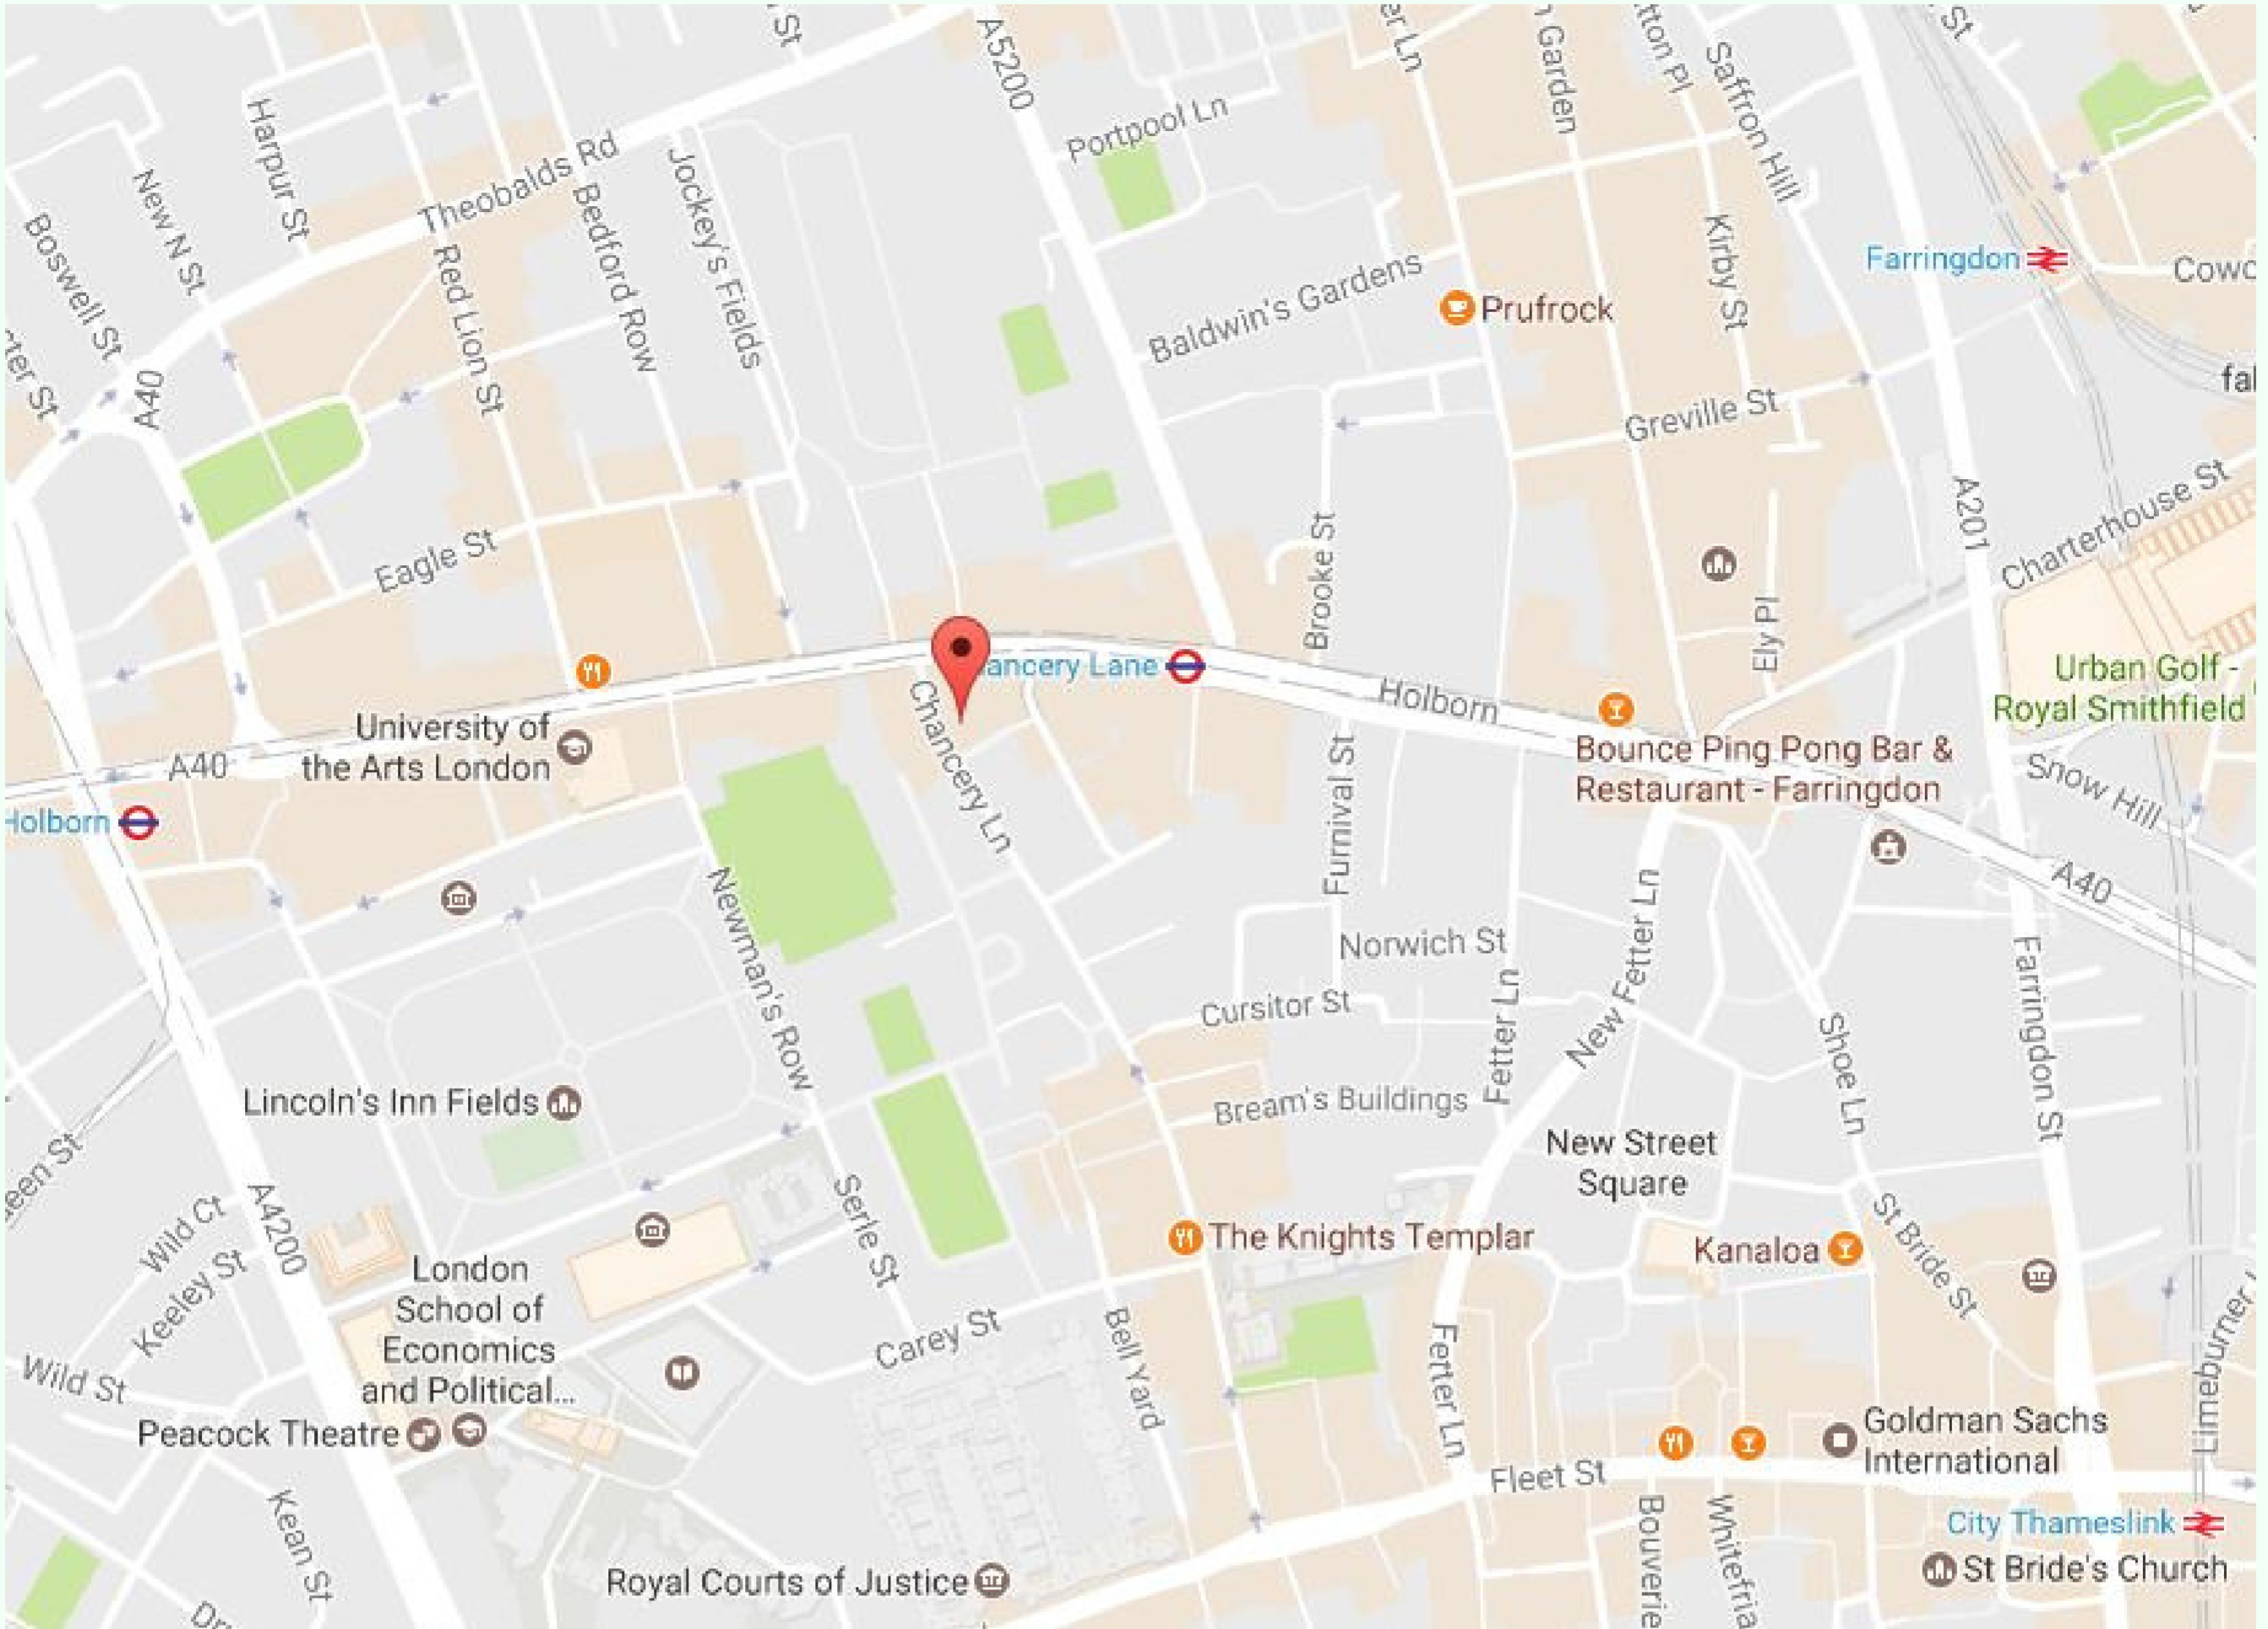

SaRS National AGM will be held 1715-1745

Location: WSP House, 70 Chancery Lane, London WC2A 1AF
